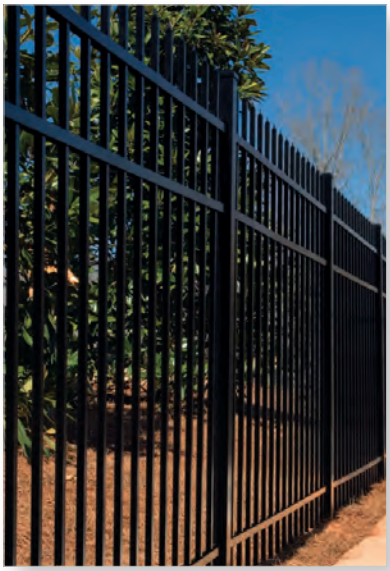
Vintage Square® Premium

The Ornamental
Aluminium Fence with
No-Visible Fasteners

Merchants Metals®
the first name in fence solutions

Elegance, endurance and value distinguish Vintage Square® Premium from traditional aluminum and wrought iron fencing. It is the first truly new aluminum fence that provides No-Visible Fasteners, a sun-resistant, chemical-resistant, and durable maintenance free powder coated finish.

Every aspect of this fencing – from post to finial – shows our exacting attention to detail, and the elegance and seamless grace of our unique fastening construction makes Vintage Square® Premium the perfect complement to your landscape.



Lafayette Fence Style

Lafayette Fence Style

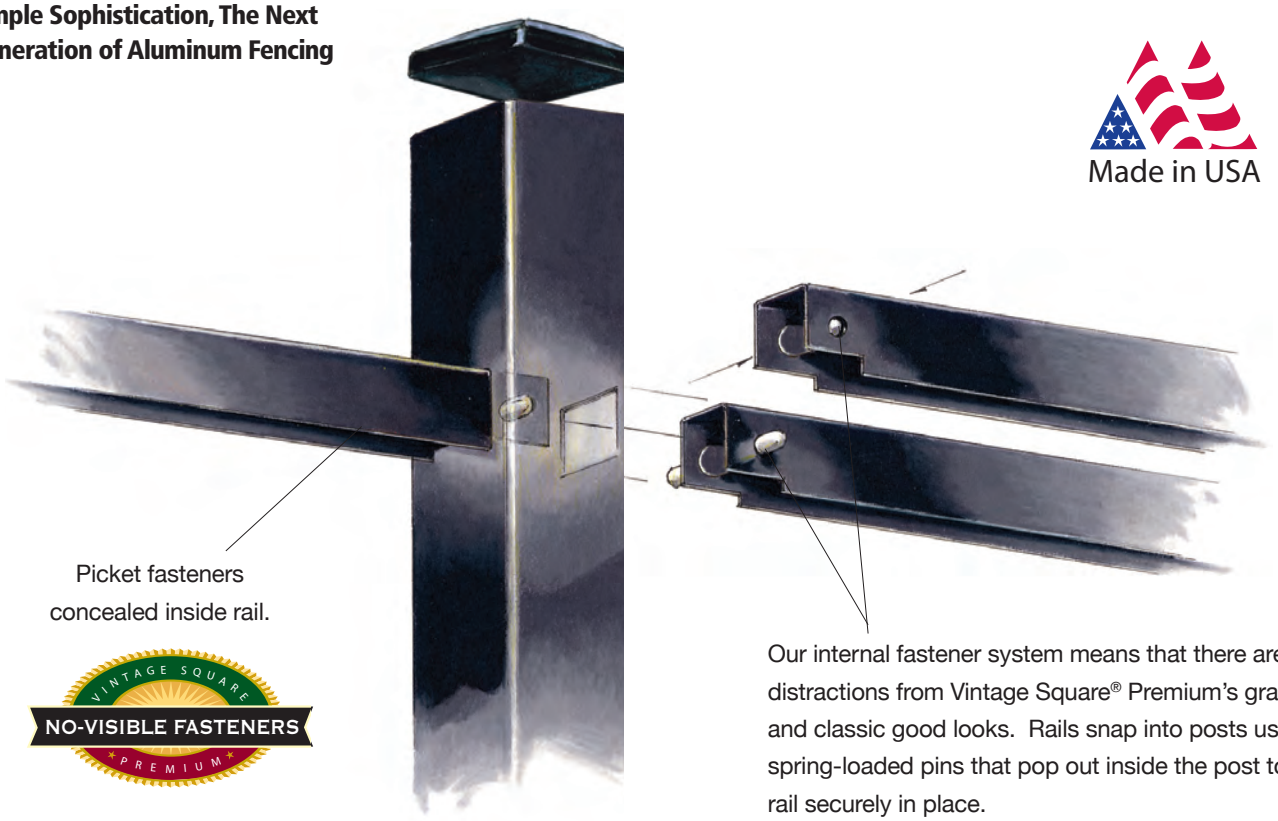
Made with high-strength 6063-T5 aluminum, Vintage Square® Premium is as durable as it is beautiful and will provide a lifetime of worry free performance.

Vintage Square® Premium comes to you factory-assembled and carefully packed to ensure that it arrives in perfect condition. Installation requires little more than snapping the rails in place, a quick and easy job that makes this premium fencing surprisingly affordable.

Monroe Pool Fence Style

Simple Sophistication, The Next Generation of Aluminum Fencing

Made in USA



Our internal fastener system means that there are no visual distractions from Vintage Square® Premium's graceful lines and classic good looks. Rails snap into posts using unique spring-loaded pins that pop out inside the post to hold the rail securely in place.

In uneven terrain, the breakthrough fastening technology of Vintage Square® Premium allows rails to rotate vertically so that fencing can flow seamlessly across your landscape.

With Vintage Square® Premium there are no special tools required for installation, no chances of damaging the finish while tightening screws, no screws to come loose and no visible fasteners from either side. Just a lifetime of worry free performance from clean, durable, and elegant fencing.

Monroe Fence Style

The Perfect Choice For Your Pool

Aluminum fencing is the first choice in areas where moisture, salts or chemicals would quickly destroy steel–and the Vintage Square® Premium AQUA SERIES is the ideal solution for pool enclosures.

To meet International Building Code (IBC) requirements for swimming pool enclosures, the distance between 'step points' (the bottom rail and the rail above it) must exceed 45 inches to prevent anyone from climbing over the fence, and pickets must be spaced less than 4 inches apart to prevent children from squeezing through.*

Monroe Pool 2 Rail Fence Style

To ensure that our fence lasts as long as your pool, our advanced manufacturing and coating processes employ only the highest quality materials, and our exacting attention to detail shows in every aspect of construction. From post to finial, we rest our reputation on the maintenance-free durability and good looks of our fence.

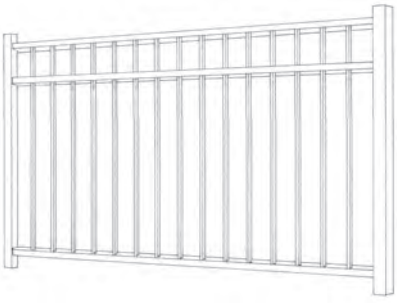
With Vintage Square® Premium, you can enjoy your pool–without worrying about your fence or uninvited guests!

Monroe Pool Fence Style

Coronet Pool

Flat top panel with alternating pressed point pickets

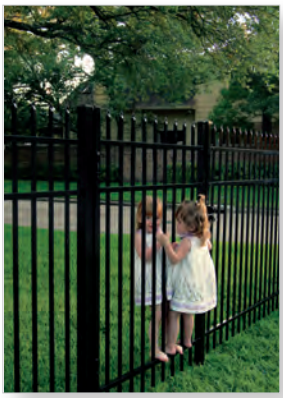
Monroe Pool



A clean and simple design with no pickets above the top rail.

* Always verify the local code requirements for swimming pool enclosures in your area before proceeding with installation of any pool enclosure fence.

Welded Gates



Vintage Square® Premium 'No-Sag' gates are fully welded at all contact points giving them great internal strength and rigidity, superior to gates in which pickets are screwed to rails.

Standard spring-loaded self-closing hinges and the optional latch feature the same powder coating as our posts, rails and pickets, making them durable, dependable and attractive.

Gates are available in walk, drive and cantilever slide styles and custom estate gates can be manufactured to match your Vintage Square® Premium system.

Please consult your local Merchants Metals service center regarding availability and pricing.

Optional Lockable Latch

Lafayette Standard Single Swing Gate Style

Monroe Fence Style Custom Arch-Top Gate

Monroe Double Drive Gate Style

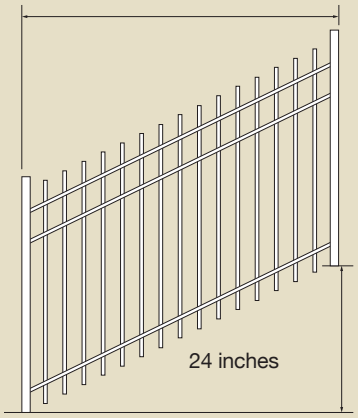
Our Finish:
The factory-applied TGIC polyester powder coating provides a beautiful maintenance-free finish with superior coverage of all surfaces, including edges. This coating meets and exceeds AAMA 2604 specifications and is far more durable, fade resistant and scratch resistant than comparable painted finishes.



Each 6 foot wide foot section accommodates elevation changes up to 24 inches.

Our Warranty: We stand behind our fencing with a limited lifetime warranty that covers all components of the fence system. See your local distribution center for details.
